DETAILED ACTION

REASONS FOR ALLOWANCE

1. Claims 1-16 are allowable over the prior art.
2. The following is an examiner's statement of reasons for allowance:

With respect to claims 1 & 6, US 5,760,390 to Vezzalini et al does not disclose nor suggest a transparent light transmissive element interposed between the light source and light-projecting lens. US 5,528,027 to Mizutani disclose a scanning apparatus comprising a light source as a light projecting section comprising laser (37) as a light source, collimating lens (47) as a light projecting lens, and plane parallel glass plates (46A, 46B) as a transparent light transmissive element. However, Mizutani does not disclose a deflection angle adjusting arrangement capable of finely adjusting an optical axis deflection angle. As a result, independent claims 1 & 6 and dependent claims 2, 5, & 7-16 are allowable over the prior art.

With respect to claim 3, Mizutani does not disclose the deflection angle adjusting means being plane parallel glass plates (46A, 46B) as Mizutani does not disclose nor suggest that plates (46A, 46B) be capable of being finely adjusted to change the optical axis deflection angle. As a result, claim 3 and dependent claim 4 are allowed over the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
